131.	ZAHID	USAMA MUHAMMAD	14		
132.	ZAHID	MUHAMMAD TAUQEER	EXCLUDED		

**Notice:** any part of the selection procedure is graded with marks up to 30 points; grades below 18 will be considered not sufficient for admission to the second step.

Applicants with a grade of 18 or higher are eligible for the second step that will consist in an interview that will be held on:

**JULY 17 ROOM C (GROUND FLOOR)**

**JULY 18 ROOM 108 (FIRST FLOOR)**

**JULY 19 ROOM 108 (FIRST FLOOR)**

**JULY 20 ROOM 108 (FIRST FLOOR)**

**In Via Della Vasca Navale n. 84 – 00146 Roma**

Please confirm your participation to the interview by mail to: [dottorato.matematica@uniroma3.it](mailto:dottorato.matematica@uniroma3.it) and specify if you choose to be interviewed in person at the University of Roma Tre (Department of Mathematics and Physics, Via della Vasca Navale n. 84 – 00146 Roma) or if you choose a Skype interview, in which case you should communicate your Skype name to the above email address in advance at your earliest convenience. Please be aware that, in both cases, each time-slot is meant to interview several candidates, so you should be patient and wait for your turn.

If you intend to have a remote interview, you should be available on Skype at that time indicated in the table above and wait to be contacted by the committee. (The skype address used by the committee will be phd\_program\_roma3)

We take the opportunity to remind you that during the interview the candidates will be asked to discuss with the committee their mathematical interests, illustrating their master thesis, and their future projects and their connection with the research areas in the Department of Mathematics and Physics at Roma Tre University (in max 15 minutes including questions). Moreover, each candidate will be asked to give a brief presentation (max 10 minutes) on one topic, chosen by the candidate among the three topics indicated in the previous table (for the list of topics see the file “*Oral\_Topics\_XXXIX\_ciclo.pdf*”). The interview will last about 25 minutes.

At the beginning of the interview, candidates will be asked to express a priority (first, second and third choice) among the three different types of scholarship:

- a) Scholarship in Mathematics (general);
- b) Scholarship on the project "Automated reasoning methods in evaluating the security properties of cryptographic primitives";
- c) Scholarship on the project "Machine Learning and 3D Computer Vision".

Candidates may indicate that they do not wish to participate in one or two of the three types of scholarship. Be aware that there will be three different rankings, one for each scholarship. Moreover, in each ranking, candidates will be ordered by priority first, and only then by the final grade (which will be the same for all scholarships).

Finally, please remember to have your passport or other ID document with you for the interview.

Roma, July 11, 2023

The Committee:	Prof. Emanuele Haus
	Prof. Marco Pedicini
	Prof. Luciano Teresi
	Prof. Amos Turchet
